SUMMARY

Eighth-semester systems engineering student and software developer with main focus on web applications. Self-taught, dedicated and always willing to learn new skills and technologies to solve problems. I am fluent in English and have participated in various software development projects, both collaborative and personal.

ACADEMIC EXPERIENCE

8/2021 – 6/2022 — **Full stack developer** — **Universidad del Norte – EPICS in IEEE**

Project that supported the learning of English for people with visual disabilities and high school students through a mobile application. In charge of the frontend and partially in charge of the backend of the school's web platform.

`React / SASS / Flask / Docker / Git / GitHub`

09/2019 - 11/2019 — **Video game programmer** — **Universidad del Norte**

Recognition for the bungee jumping simulator project, which was part of the GeoExpoFísica 2019 fair at the Universidad del Norte.

`Processing`

EDUCATION

2019 – Current — **Systems and Computer Engineering** — **Universidad del Norte**

Distinguished Student – GPA: 4.1/5

CERTIFICATES

8/2022	**Node.js Basics**	**Platzi**
8/2022	**Advanced JavaScript: Good Practices**	**Linkedin Learning**
8/2022	**Esential MySQL**	**Linkedin Learning**
1/2022	**Using Python to Access Web Data**	**Coursera – Universidad de Michigan**
7/2021	**Profesional Git and GitHub**	**Platzi**
12/2020	**Python Functions, Files and Dictionaries**	**Coursera**

LANGUAGES

Spanish - native
English - intermediate

COMPUTING SKILLS

- Java
- JavaScript | React | Node.js
- HTML5 | CSS | SASS
- Python | Flask
- Flutter
- C#
- MATLAB
- Docker
- Git
